22. In the case of irregular shaped advertising devices, including words with ascending or descending upper or lower case letter strokes, or replicas or shapes, the face area is calculated by not more than 2 abutting and non-overlapping rectangles added together.
23. Decorative lines, stripes and architectural trims of an advertising device, whether illuminated or not, form part of the face area of the advertising device.
24. In calculating the size of an advertising device, v-shaped advertising devices are classed as 2 advertising devices unless otherwise determined by this subordinate local law.
25. The maximum face area for a free-standing sign is 48m².
26. The maximum allowable height for a free-standing sign is 15m.

⁷ Where particular areas have unique or special characteristics which may affect advertising device requirements, separate guidelines or variations may be applied.
