

Species List for Regional Ecosystem 12.3.7a

Melaleuca bracteata open forest

Description: Riverine wetland or fringing riverine wetland. Melaleuca bracteata open forest. Occurs in drainage depressions on Quaternary alluvial plains.

Additional Information:

- The animal symbols represent the habitat/food resource of a particular animal.
- The column C denotes the conservation status of a particular species of plant, E is Endangered, V is Vulnerable, and R is Rare.
- Δ denotes a species that is commercially available, suitable, and used for revegetation.
- E is Endangered, V is for Vulnerable, and NT is for Near Threatened, RS – regionally significant – LVRC Lockyer Valley Regional Council.

Habitat values:

- Tusked frog, Greenstripe frog, Superb collared-frog, Warty water-holding frog, Salmon-striped frog, Red Goshawk, Powerful owl, Lewin's rail, Painted snipe, Spotted-tailed quoll, Koala.

Conservation Status of Regional Ecosystem: Not of Concern at present (Queensland Vegetation Management Act 1999).

Available	Scientific name	Common name	Fauna	C
Trees				
Δ	<i>Acacia harpophylla</i>	Brigalow	 	
Δ	<i>Angophora subvelutina</i>	Broad leaf apple		
Δ	<i>Casuarina cunninghamiana</i>	Creek she-oak		
Δ	<i>Casuarina glauca</i>	Swamp she-oak		
Δ	<i>Corymbia tessellaris</i>	Moreton bay ash		
Δ	<i>Cupaniopsis parvifolia</i>	Small leaf tuckeroo	 	
Δ	<i>Eucalyptus moluccana</i>	Gum topped box	 	
Δ	<i>Eucalyptus tereticornis</i>	Blue gum	 	
Δ	<i>Ficus macrophylla</i>	Moreton bay fig	 	
Δ	<i>Ficus rubiginosa</i>	Small leaf Moreton bay fig	 	
Δ	<i>Ficus virens</i>	Deciduous fig	 	
Δ	<i>Flindersia australis</i>	Crows ash	 	
Δ	<i>Flindersia collina</i>	Leopard ash	 	
Δ	<i>Grevillea robusta</i>	Silky oak	 	

Δ	<i>Lophostemon suaveolens</i>	Swamp box			
Δ	<i>Melaleuca bracteata</i>	Black tea-tree			
Δ	<i>Melaleuca viminalis</i>	Creek bottle brush			
	<i>Owenia venosa</i>	Crows apple			
Small trees					
Δ	<i>Acacia leiocalyx</i>	Early Flowering wattle			
Δ	<i>Acacia maidenii</i>	Maidens wattle			
	<i>Alectryon diversifolius</i>	Scrub Boonaree			
Δ	<i>Alphitonia excelsa</i>	Soap tree			
Δ	<i>Alstonia constricta</i>	Bitter bark			
Δ	<i>Auranticarpa rhombifolia</i>	Diamond holly			
	<i>Bridelia exaltata</i>	Large leaf scrub ironbark			
	<i>Bridelia leichhardtii</i>	Small leaf scrub ironbark			
Δ	<i>Bursaria incana</i>	Prickly pine			
	<i>Capparis arborea</i>	Native pomegranate			
	<i>Capparis mitchellii</i>	Wild orange			
	<i>Clerodendrum floribundum</i>	Smooth lolly bush			
	<i>Diospyros geminata</i>	Scaly ebony			
	<i>Drypetes deplanchei</i>	Yellow tulip			
	<i>Ehretia membranifolia</i>	Native peach			
	<i>Elaeodendron australe</i> var. <i>integrifolium</i>	Red olive plum			
Δ	<i>Elattostachys xylocarpa</i>	Scrub beetroot			
	<i>Excoecaria dallachyana</i>	Scrub poison tree			
Δ	<i>Ficus coronata</i>	Creek sandpaper fig			
	<i>Ficus fraseri</i>	Sandpaper fig			
Δ	<i>Ficus opposita</i>	Scrub sandpaper fig			
	<i>Geijera salicifolia</i>	Scrub wilga			
	<i>Geijera parviflora</i>	Narrow leaf wilga			
Δ	<i>Glochidion ferdinandi</i>	Cheese tree			
Δ	<i>Hymenosporum flavum</i>	Native frangipani			
Δ	<i>Jagera pseudorhus</i>	Foam bark			
Δ	<i>Mallotus philippensis</i>	Red kamala			
	<i>Maytenus disperma</i>	Orange bark			
Δ	<i>Melia azedarach</i>	White cedar			
	<i>Notelaea longifolia</i>	Large leaved mock olive			
	<i>Notelaea microcarpa</i>	Small fruited mock olive			
Δ	<i>Pittosporum angustifolium</i>	Sweet pittosporum			
	<i>Psydrax odorata</i>	Sweet Suzie			
Δ	<i>Streblus brunonianus</i>	Whalebone tree			
Δ	<i>Trema tomentosa</i>	Poison peach			
Shrubs					
Δ	<i>Alchornea ilicifolia</i>	Native holly			
	<i>Alyxia ruscifolia</i>	Chain fruit			
Δ	<i>Breynia oblongifolia</i>	Dwarf apple			

Δ	<i>Bursaria spinosa</i>	Blackthorn			
	<i>Carissa ovata</i>	Currant bush			
	<i>Clerodendrum tomentosum</i>	Hairy lolly bush			
Δ	<i>Pittosporum revolutum</i>	Hairy laurel			
Δ	<i>Pittosporum viscidum</i>	Birds nest bush			
	<i>Sclerolaena tetracuspis</i>	Brigalow burr			
Vines					
	<i>Austrosteenisia blackii</i>	Blood vine			
Δ	<i>Cayratia clematidea</i>	Five leaf grape			
Δ	<i>Cissus antarctica</i>	Native grape			
Δ	<i>Cissus opaca</i>	Slender grape			
	<i>Derris involuta</i>	Fish poison vine			
	<i>Diplocyclos palmatus</i>	Striped cucumber			
Δ	<i>Eustrephus latifolius</i>	Wombat berry			
Δ	<i>Geitonoplesium cymosum</i>	Scrambling lily			
Δ	<i>Jasminum didymium</i> subsp. <i>racemosum</i>	Slender jasmine			
Δ	<i>Jasminum simplicifolium</i> subsp. <i>australiense</i>	Stiff jasmine			
Δ	<i>Maclura cochinchinensis</i>	Cockspur vine			
Δ	<i>Pandorea jasminoides</i>	Scrub wonga vine			
Δ	<i>Pandorea pandorana</i>	Wonga vine			
	<i>Pandorea</i> sp. (Ipswich K.A.Williams 86020)	Yellow wonga vine			
Δ	<i>Parsonia straminea</i>	Monkey rope vine			
Δ	<i>Smilax australis</i>	Barbwire vine			
	<i>Stephania japonica</i>	Tape vine			
Δ	<i>Trophis scandens</i>	Burny vine			
Creepers					
	<i>Convolvulus erubescens</i>	Australian Bindweed			
Δ	<i>Eremophila debilis</i>	Winter apple			
	<i>Evolvulus alsinoides</i>	Baby blue eyes			
	<i>Glycine clandestina</i>	Trailing pea			
	<i>Glycine tabacina</i>	Trailing pea			
	<i>Polymeria calycina</i>	Slender Bindweed			
	<i>Tetragonia tetragonoides</i>	Native spinach			
Grasses					
	<i>Austrostipa ramosissima</i>	Stout bamboo grass			
	<i>Bothriochloa decipiens</i>	Pitted blue grass			
	<i>Capillipedium spicigerum</i>	Scented top			
Δ	<i>Cymbopogon refractus</i>	Barbwire grass			
Δ	<i>Heteropogon contortus</i>	Black spear grass			
Δ	<i>Imperata cylindrica</i>	Blady grass			
Δ	<i>Microlaena stipoides</i>	Rice meadow grass			
	<i>Oplismenus aemulus</i>	Creeping shade grass			
Δ	<i>Themeda triandra</i>	Kangaroo grass			
Herbs					

	<i>Achyranthes aspera</i>	Devils horse whip		
	<i>Ajuga australis</i>	Blue trumpet		
	<i>Alternanthera nana</i>	Dwarf knot plant		
	<i>Aneilema acuminatum</i>	White wandering jew		
	<i>Aneilema biflorum</i>	Twin flower wandering jew		
	<i>Atriplex semibaccata</i>	Creeping saltbush		
	<i>Brunoniella australis</i>	Blue trumpet		
	<i>Centella asiatica</i>	Pennywort		
	<i>Chenopodium carinatum</i>	Creeping crumbweed		
	<i>Commelina diffusa</i>	Blue wandering jew		
	<i>Cyanthillium cinereum</i>	Vernonia		
Δ	<i>Dianella brevipedunculata</i>	Bent leaf flax lily		
Δ	<i>Dianella caerulea</i>	Blue flax lily		
	<i>Dichondra repens</i>	Kidney plant		
	<i>Einadia hastata</i>	Ruby salt bush		
	<i>Einadia nutans subsp. <i>linifolia</i></i>	Narrow leaf saltbush		
	<i>Enchytraea tomentosa</i>	Ruby salt bush		
	<i>Flemingia parviflora</i>	Flemingia		
	<i>Gahnia aspera</i>	Sword sedge		
	<i>Hybanthus stellaroides</i>	Spade flower		
	<i>Hydrocotyle acutiloba</i>	Pennywort		
	<i>Hydrocotyle laxiflora</i>	Stinking pennywort		
	<i>Lobelia purpurascens</i>	White root		
	<i>Nyssanthes diffusa</i>	Barbwire plant		
	<i>Physalis minima</i>	Native gooseberry		
	<i>Plantago debilis</i>	Plantain		
Δ	<i>Plectranthus parviflorus</i>	Small flowered coleus		
	<i>Polygonum aviculare</i>	Knotweed		
	<i>Pseuderanthemum variabile</i>	Love flower		
	<i>Sida subspicata</i> (<i>Sida hackettiana</i>)	Spiked sida		
	<i>Urtica incisa</i>	Stinging nettle		

Aquatic & Semi-aquatic

	<i>Alternanthera denticulata</i>	Lesser joyweed		
	<i>Azolla filiculoides</i>	Azolla		
	<i>Azolla pinnata</i>	Azolla		
	<i>Carex appressa</i>	Tall sedge		
	<i>Cyperus difformis</i>	A sedge		
	<i>Cyperus exaltatus</i>	Giant sedge		
	<i>Cyperus fulvus</i>	A sedge		
	<i>Cyperus gracilis</i>	Whisker grass		
	<i>Eclipta prostrata</i>	White Eclipta		
	<i>Eleocharis dulcis</i>	Water chestnut		
	<i>Fimbristylis dichotoma</i>	Finger rush		

	<i>Juncus continuus</i>	A reed		
	<i>Juncus polyanthemus</i>	A reed		
Δ	<i>Juncus usitatus</i>	A reed		
	<i>Leersia hexandra</i>	Swamp ricegrass		
Δ	<i>Lomandra hystrix</i>	Creek mat rush		
Δ	<i>Lomandra longifolia</i>	Creek mat rush		
	<i>Marsilea hirsuta</i>	Hairy nardoo		
	<i>Marsilea mutica</i>	Smooth nardoo		
	<i>Persicaria attenuata</i>	White smart plant		
	<i>Persicaria decipiens</i>	Slender smart plant		
	<i>Persicaria elatior</i>	A Smart plant		
	<i>Persicaria hydropiper</i>	Water pepper		
	<i>Persicaria lapathifolia</i>	Pale smart plant		
	<i>Persicaria orientalis</i>	Prince's feather		
	<i>Schoenoplectus mucronatus</i>	Club rush		
	<i>Schoenoplectus validus</i>	Club rush		
	<i>Typha orientalis</i>	Bulrush		

Epiphytes

	<i>Dockrillia linguiformis</i>	Tick orchid		
--	--------------------------------	-------------	--	--

Mistletoes

	<i>Amyema bifurcatum</i>	Weeping mistletoe		
	<i>Amyema cambagei</i>	Needle leaf mistletoe		
	<i>Amyema congener</i>	Variable mistletoe		
	<i>Amyema conspicua</i>	Alphitonia mistletoe		
	<i>Amyema miquelii</i>	Bronze mistletoe		
	<i>Dendrophthoe vitellina</i>	Apostle mistletoe		
	<i>Notothixos incanus</i>	Grey leaf mistletoe		
	<i>Viscum articulatum</i>	Leafless mistletoe		

Planting Note for 12.3.7a

Eucalyptus tereticornis open forest to woodland on alluvial plains

Additional notes:

- In areas with vine thicket (Dry rainforest/Scrub) present nearby, the understorey can contain a large percentage of rainforest species from regional ecosystem 12.9-10.15.

Planting intervals and percentages:

- Eucalyptus tereticornis should make up 75% of the canopy species.

- Melaleuca bracteata at 75% of the midstorey
- Eucalyptus tereticornis planting intervals of 8 metres.
- Remaining tree species should be distributed evenly through the area.
- Remaining species evenly distributed.

Site preparation

- Firstly, consider if the site is suitable – areas that are moisture retentive usually give the best results e.g., creek/river, rich scrub soils and floodplains.
- Consider whether the planting area can be deep ripped, or hand planted.
- Is the site safe from predators e.g. livestock, hares and wallabies.
- The site may have to be fenced off.
- Tree protection bags may have to be used.
- Deep ripping firstly and allowing rain to enter the ripples over weeks or even months is beneficial.
- When hand planting pre-wet the holes with water and a small amount of detergent or use water retentive crystals wet or dry.
- Use only healthy well rooted stock plants native to the ecosystem you are planting in.
- Use deep native tubes for eucalypts, and/or 150mm pots with rainforest species.
- Additives to the planting hole e.g., gypsum, crusher dust, diatomaceous products, seaweed, or fish emulsion
- Use organic slow-release fertilisers in granules or pellet form. These can be placed in the hole before planting or on top before or after mulching. They should always be watered in.
- Staking should not be necessary unless they are being used as markers only.
- Construct a shallow basin when planting so water can enter root area of plant.
- Use mulch e.g., hay, straw, sugar cane, woodchip, tub ground green waste (strips of wood and bark), rocks if available, gravel, and crusher dust.
- Water in tubes with 2 litres or more and 4 litres for 150mm pots. Plants will do best with 4 litres of water per plant per week for up to 6 weeks.
- Maintenance will need to be carried out for at least 12 months or more. Regular herbicide spraying using appropriate herbicides or manual removal of weeds. Periodic replacement of mulches as they break down.
